TSHWANE UNIVERSITY OF TECHNOLOGY 2020 AND 2021 ACADEMIC CORE CALENDAR

GROUP 2 - FIRST YEAR STUDENTS

The figure displays 12 calendar heatmaps arranged in a 4x3 grid, showing the progression of COVID-19 cases and deaths across six regions (1-6) in the UK from July 2020 to December 2021. Each heatmap has columns for the day of the week (S, M, T, W, T, F, S) and rows for the regions. The colors represent different levels of transmission and fatality risk, as defined in the legend:

- Green: no data
- Blue: no transmission
- Yellow: high transmission
- Orange: high risk
- Red: high fatality
- Pink: high infection
- Purple: high death
- Brown: high transmission and high fatality

The heatmaps show a clear seasonal pattern, with higher transmission and fatality rates occurring during the winter months (December to February) of each year. The regions are numbered 1 through 6, corresponding to the rows in each heatmap.
